**Notes:**
1. Boxes in the "% change" column highlighted in blue indicate that there was a different numbers of buyers for that variety between 2019 and 2020, therefore those values cannot be considered as accurate of a measure of the change in the price for that variety.
2. The average price listed is merely an average of the stated prices. It is not weighted based on tons purchased at each price.
3. Some premium prices may not be listed. Some processors may have sliding price scales, based on brix or other factors.
